Jakarta, 9 January, 2015

Dear Mrs. Mardiana,

Please allow me to draw your attention to the "German Season 2015" which is the official name for a series of exhibitions and events on cultural, economic, and political issues, which will be held from September until November 2015.

The activities will be planned in cooperation with the Goethe-Institute, German-Indonesian Chamber of Commerce (EKONID) as well as the German Embassy. For the second part of October the Embassy is planning a science exhibition which should illuminate the German-Indonesian cooperation in Science and Technology, the German science system. The event could also give some German companies, based in Indonesia, the opportunity to present their high-tech capabilities.

It would be very much appreciated if there would be an opportunity to present the concept of the exhibition and to elaborate the possibility whether the exhibition could be shown in the new building of the National Museum.

Please let me know if you see the opportunity to meet and further discuss.

Allow me please to assure you of my highest consideration.

*Yours
sincerely*
