Leadership is critically important during times of great change. This is particularly true today in developing, newly industrialized, and transitioning countries, where the pace of political and economic change is accelerating rapidly. Fortunately, there are people like you who feel a deep commitment to creating public value and want to develop the skills needed to promote change, solve complex challenges, transform organizations, and make life better.

YOU'RE HERE TO MAKE A DIFFERENCE.

At Harvard Kennedy School, we have developed a suite of executive education programs specifically designed for senior leaders serving in countries where the challenges and opportunities are truly unique. Here, you and your peers from more than 150 countries around the world are immersed in a collaborative, creative, and inspiring environment led by renowned Harvard faculty and leading practitioners.

I encourage you to review the enclosed brochure, which provides an overview of our upcoming offerings for global leaders. These programs—most one-week or less—are held on the Harvard Kennedy School campus in Cambridge, Massachusetts. There are no formal educational requirements to apply, as admission to a program is based on professional achievement and organizational responsibility; however, fluency in English is required.

To apply for an executive program, or to learn more about an individual program's curriculum, faculty, deadlines, and tuition, please visit our website at exed.hks.harvard.edu. If you have any questions, I encourage you to contact our admissions department at ee_admissions@hks.harvard.edu or +1 617-496-9000.

I hope that you will consider applying and share the enclosed information with others who may benefit from this transformational experience.

Sincerely,

Debra Iles
Senior Associate Dean for Executive Education
Harvard Kennedy School

UPCOMING PROGRAMS FOR GLOBAL LEADERS

HARVARD Kennedy School
Executive Education
YOU'RE HERE TO MAKE A DIFFERENCE

OVERVIEW

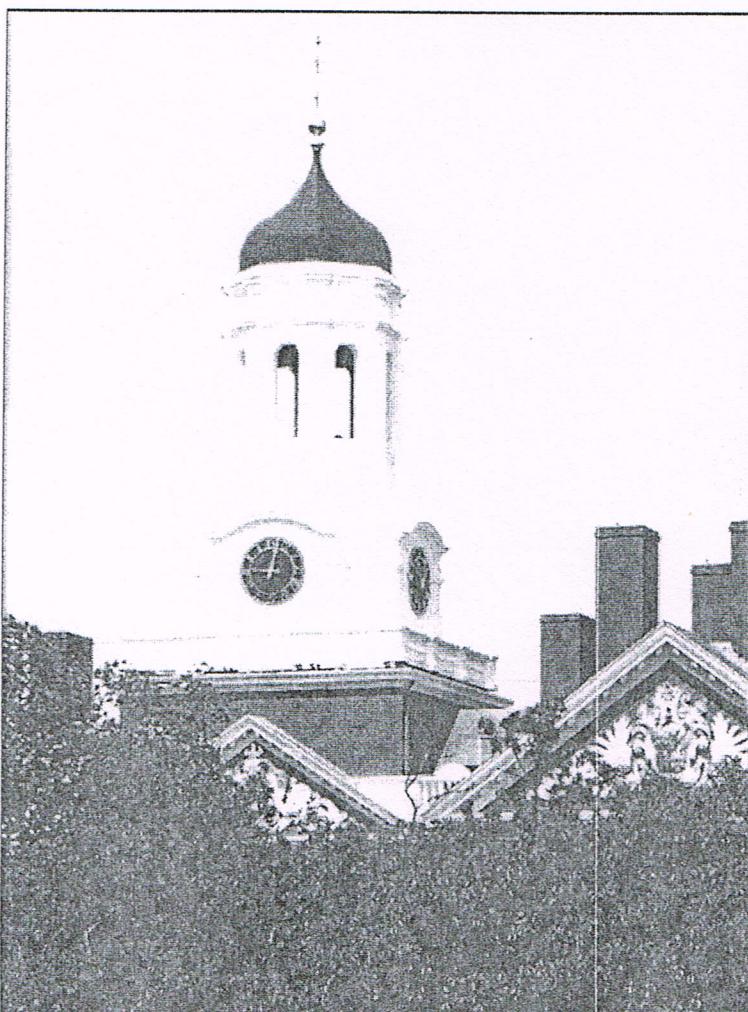

In a fast changing, increasingly interconnected world, strong public leadership is critical. That's why Harvard Kennedy School has developed a suite of executive education programs specifically designed for senior leaders like you who are at the forefront of the world's most compelling development challenges.

Held on the Harvard Kennedy School campus, these programs are led by Harvard faculty and expressly designed for those serving in developing, newly industrialized, and transitional countries. Using a multi-disciplinary approach, the curriculum focuses on developing the analytical and leadership skills required to initiate and implement major political, social, and economic change.

In just a few extraordinary days, you will transform your capabilities and build a lasting network of new colleagues. It's an experience that can't be duplicated.

"The diversity of approaches presented reflected the complexity of the subject and brought us to the next level as infrastructure developers. A pleasure to spend time in an atmosphere of intellectual challenge and true curiosity."

— MARTA JARA, CEO, GAS SAYAGO S.A., URUGUAY

**LEADERS IN DEVELOPMENT:
MANAGING CHANGE IN A DYNAMIC WORLD**

June 1 – 12, 2015

Faculty Chair: Matt Andrews

Leaders in developing and newly industrialized countries today face increasingly complex economic, political, and social challenges in response to rapidly accelerating changes. This program builds the transformational skills of leaders as their countries move toward more participatory political systems, more effective economies, and integration into a complex global economy. Participants will sharpen problem solving, analytic, and strategic action skills, consider new ways to strengthen representative politics and open markets, and manage the challenges of globalization.

INNOVATION FOR ECONOMIC DEVELOPMENT

June 15 – 20, 2015

Faculty Chair: Calestous Juma

Technological innovation is essential for fostering economic growth, enhancing global competitiveness, and protecting the environment. This executive program provides high-level leaders from government, academia, industry, and civil society with a unique opportunity to learn how to harness the power of emerging technologies to promote prosperity. The curriculum outlines strategies and measures needed to align technological trends with development policy objective focusing on how to design and implement innovation policies for economic development.

EMERGING LEADERS

June 21 – 26, 2015 and November 8 – 13, 2015

Faculty Chairs: Elaine Kamarck, Jorrit de Jong

The pace of political and economic events around the world have greatly accelerated the need for the next generation to develop the capacity to lead. This intensive program is intended for rising political leaders, policymakers, government managers, and NGO executives from developing, newly industrialized, and transitional countries united in their commitment to promote democratic, equitable, and sustainable change in their countries. Participants will explore how countries grow and develop in the global economy, establish and manage the infrastructure of modern government, develop and use political power in a cyber world, and how to effectively manage non-military global crises.

**INFRASTRUCTURE IN A MARKET ECONOMY:
PUBLIC-PRIVATE PARTNERSHIPS IN A CHANGING WORLD**

July 5 – 17, 2015

Faculty Chair: Akash Deep

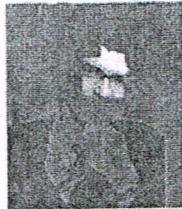

Taught by leading scholars and practitioners in regulation, privatization, and finance from across Harvard University, this program brings together senior-level officials from the public, private, and nonprofit sectors to examine lessons learned and best practices from public-private infrastructure development projects around the world. It offers an excellent opportunity for participants to engage in dialogue with faculty and to share experiences with peers from other countries. Participants leave Harvard with a deep understanding of the dynamics that determine the success or failure of infrastructure projects and the complex relationship between private infrastructure providers and government.

**TO APPLY AND LEARN ABOUT PROGRAM DATES,
CURRICULUM, TUITION, AND MORE, PLEASE VISIT**

EXED.HKS.HARVARD.EDU

All programs are open to individuals based on professional achievement and academic record. Responsibility rests with the student to furnish educational documents to verify eligibility. Tuition and costs of living in the U.S. are necessary for participation. Visit [the website](http://exed.hks.harvard.edu/ee/req) for application requirements.

Matt Andrews is Associate Professor of Public Policy at Harvard Kennedy School. His research focuses on management in developing countries and public sector reform, particularly participatory governance in developing and transitional governments. This research developed out of his work in the provincial government of KwaZulu-Natal in South Africa and, more recently, from his tenure as a Public Sector Specialist working in the Europe and Central Asia Region of the World Bank.

Akash Deep is Senior Lecturer in Public Policy specializing in finance at Harvard Kennedy School. His expertise lies in financial risk management, infrastructure finance, and the management and regulation of banks, financial institutions, and pension funds. His research has focused on hedging price and currency risk using derivative securities, the design of public-private partnerships and project financing structures, and risk management at banks.

Jorrit de Jong is Lecturer in Public Policy at Harvard Kennedy School. His research and teaching focus on the challenges of making the public sector more responsive and more resilient through innovation. A specialist in experiential learning, Jorrit has taught strategic management and public problem solving in degree and executive education programs at HKS and around the world. Jorrit also co-founded the Kafka Brigade helping governments diagnose and remedy bureaucratic dysfunction, and was director of the Center for Government Studies at Leiden University.

Calestous Juma is Professor of the Practice of International Development and Director of the Science, Technology, and Globalization Program at Harvard Kennedy School. He also directs the Agricultural Innovation in Africa Project funded by the Bill and Melinda Gates Foundation. He is a former Executive Secretary of the United Nations Convention on Biological diversity and Founding Director of the African Centre for Technology Studies in Nairobi.

Elaine Kamarck is Lecturer in Public Policy who came to Harvard Kennedy School in 1997 after a career in politics and government. In the 1980s, she was a co-founder of the New Democrat movement that helped elect Bill Clinton to President of the United States. She served in the White House from 1993 to 1997 managing the Administration's National Performance Review. She also conducts research on 21st century government, the role of the internet in political campaigns, homeland defense, intelligence reorganization, and governmental reform and innovation.
